### Ecuador Field Experience Trip

December 31, 2019–January 17, 2020

- Went to multiple places in Ecuador to learn about the environmental issues as well as cultural issues.
- Listened to people from the area that live in these cities talk about the issues they face everyday with environmental threats.
- Travelled to the Galapagos Islands and stayed there for a few days and saw how they regulate the rules and keep their islands so clean.
- Went on many strenuous activities to learn about the culture of what each historical place represents in the area to which we were in.
- Went to tortoise sanctuaries to see how the repopulation of endangered species takes place.
- Had a class before the trip to discuss what will take place while in Ecuador, we as individuals wrote blogs about our trip and a term paper about the topic of choice that involved an environmental crisis or issue.
